

## EU-27 Watch

The enlarged EU of 27 members is in a process of reshaping its constitutional and political order, of continuing membership talks with candidate countries and taking on new obligations in international politics. This project sheds light on key issues and challenges of European integration. Institutes from all 27 EU member states as well as from Croatia and Turkey participate in the project. The aim is to give a full comparative picture of debates on European integration and current developments in European politics in each of these countries.
